

### SPECIAL PACKAGES FOR TICAD DELEGATES

#### (i). NAIROBI DAY TRIP

##### 10:00am

Pick up from your city hotel in Nairobi and departure to Daphne Sheldrick - the world-renowned orphanage where orphaned baby elephants and rhinos are raised for their return to the wild. View the baby elephants being fed and later play between 11am and 12pm.

##### 12:00pm

Visit at the Giraffe Center- view the giraffes, take photos and feed them.

##### 1:00pm

Visit Karen Blixen Museum.

The Museum takes visitors 'Out of Africa,' into historic home of Danish author who was focus of 1985 movie. You may as well know it before you go: Denys Finch-Hatton was no Robert Redford. That's the main disappointment voiced by visitors to the sprawling stone farmhouse, now in a Nairobi suburb, where Danish author Karen Blixen lived from 1914 to 1931 and where she welcomed her lover, Finch-Hatton. "But who is?" countered our guide, Anne Mieke Raassen, in a lilt reminiscent of Meryl Streep, Redford's co-star in the award-winning "Out of Africa." Since the 1985 Oscar sweep, crowds have doubled at the Blixen manor, now restored as a national museum

**2:30pm**

Visit The Bomas of Kenya. Just a few kilometres from the city, visit numerous "bomas" or homesteads (Embu, Kalenjin, Kamba, Kikuyu, Kisii, Kuria, Luhya, Luo, Maasai and Taita) reflecting Kenya's cocktail of cultures that have been faithfully re-created for visitors to see traditional village life, dances, music and songs performed in this splendid arena.

**6:00pm**

Drop off at your city hotel.

**COST: USD. 120.00 Per person**

**INCLUDED**

- Pick up/drop off from your city hotel

#### **(iv). MPATA SAFARI CLUB**

Established in 1992, Mpata Safari Club is designed by the **Japanese architect Edward Suzuki**.

Commanding a majestic panorama of Masai Mara, the Savannah of the maasai people, the lodge is astride a plateau gently sloping down towards a rugged, well-defined escarpment.

23 cottages are spread on both sides of the centrally placed common club-house parallel to the escarpment.

The club-house fuses two basically semi-circular, fan-shaped components. Beneath this are various functions which are terraced relative to the sloping terrain.

In the centre is an open patio which serves as the focal generator of the plan as well as a ventilator and shaft for natural daylight.

The structure has been kept open to allow natural cross ventilation, but where there are strong winds, as occurs along the peripheral edges of the dining and bar areas, glass windbreakers have been installed.

#### **FLIGHT PACKAGE ITINERARY**
